Dr. Christine Grady's contributions are both conceptual and empirical and are primarily in the ethics of clinical research, including informed consent, vulnerability, study design, recruitment, and international research ethics, as well as ethical issues faced by nurses and other health care providers.

About Me	Selected Publications	Honors
----------	-----------------------	--------

Dr. Grady is a nurse-bioethicist and a senior investigator who currently serves as the Chief of the Department of Bioethics.

Dr. Grady has published widely in the biomedical and bioethics literature and authored or edited several books, including *The Oxford Textbook of Clinical Research Ethics*.

She served from 2010-2017 as a Commissioner on the President's Commission for the Study of Bioethical Issues. Her work is known internationally, and she has lectured widely on ethical issues in clinical research and clinical care, HIV disease, and nursing. She is an elected fellow of the Hastings Center and of the American Academy of Nursing, a senior research fellow at the Kennedy Institute of Ethics and an elected member of the National Academy of Medicine, and is the recipient of multiple awards.

She holds a BS in nursing and biology from Georgetown University, a MSN in community health nursing from Boston College, and a PhD in philosophy from Georgetown University.

See her Intramural Research Program bio page (<https://irp.nih.gov/pi/christine-grady>).
